Re: Jilore Vijana Resource Center

The above proposed project will be situated in Jilore and the whole community is in total support of the initiative. The youth of Jilore will benefit a lot from the project, plus the neighboring community at large.

I highly recommend the idea and the whole administration is in full support.

Thank you,
Yours in Service,

Charles M. Mulewa

Jilore Vijana Resource Center

Jilore location, which is within the larger Lango Baya Division, of Malindi District lacks a community resource center, particularly for the youth. A center which could also serve as a resource establishment for both the youth and its wazee (adults/elders) would truly benefit the community.

The headmaster of Jilore High School, Mr. Shumaa Munga, and Miss Lee Ann Sobczak, Peace Corps Volunteer, have brought a suggestion for such center to be established and has sold the idea to the Jilore Community which has accepted it very keenly. This was discussed at the School Board meeting on November 5, 2010. It was resolved that the school offers half an acre of its land for the establishment of this center because we were in full support of the project.

The school and the community believe the students of several schools in the division will also benefit from the activities of this center.

Sincerely,

Edward B. Kingi
