To the Donor/Sponsor of Jilore Vijana Resource Center

Dear Sir/Madam:

I wish to appreciate the initiative and the effort of the Peace Corps Volunteer, Lee Ann Sobczak, sent to Kenya by the U.S.A to serve in Jilore location of Malindi District in the Coast Province. The Building of the resource center translates her vision for the Jilore community. Jilore did not have a resource center for recreational activities apart from football fields within the learning institutions.

The resource center in Jilore I hope will (1) Provide access to recreational activities to the youth in the location. (2) Provide access to technical skills and introduce the general population to Information, Communication, and Technology (I.C.T) when computers are available.

The resource center was built near the school compound of Jilore High School, adjacent to the church, dispensary, Youth Polytechnic, and primary school. It is about 28 km from Malindi Town along the Malindi-Lango Baya road. Thus, it will benefit the community by being used as a seminar/lecture hall for educative and social gatherings.

Jilore location has trained graduates of different level of education and technical skills who serve within Malindi district and outside in the Coast Province. These graduates can give lectures of the incentive on educational matters and what is it that made them succeed in their careers of their choice.

I sincerely hope and believe the resource center in Jilore, with full implementation and used of computers, televisions, and newspapers will make the people feel like they have joined the global village of technology and keep them informed of what is happening in the world today.

Thank you,

Yours Faithfully
B.N. Mae
