To: JVRC Donors

In my opinion, the construction of the Jilore Vijana Resource Center will have a vast impact on the community. Now, there is a meeting hall where the youth and the community can meet under shade during rains or heat. Since Jilore High School does not have a hall of its own, recently, the debate and Tae-Kwon-Do clubs have been meeting in the new resource center to conduct their activities.

We are looking forward to being able to educate the community on how to use computers and how to browse the internet. We now have a place to train the youth on reproductive health issues, HIV/Aids, drugs and substance abuse issues, and educate them on income generating skills.

We will be able to provide sports equipment for the youth as well as books and magazines will be available for the youth and community to read. A television screen is soon to be installed so that the youth can be informed and be entertained.

The resource center is of great importance to the youth and the community at large. In particular the school stands to benefit more since its population is made up of the youth from and around Jilore.

Yours faithfully,
